Dock

Kurt Van Overbeke | 2018

The Dock is a versatile table, ideal for flexible workspaces and meetings. A table that adapts effortlessly to its environment. Thanks to its modular design, it can be configured exactly as you need it: from seated to standing height, with or without integrated lighting, and even with space for greenery.

One table, endless possibilities. From creative brainstorming sessions to informal meetings, the Dock table blends seamlessly into its surroundings. Whether you opt for a large or compact setup, seated or standing, with or without lighting or plants — the Dock table becomes exactly what you make of it.

Project: Havenhuis Antwerpen | Partner: FORUM OFFICE | Photography: Sarah Blee

Product name
Dock

Table top
Laminate B, laminate C and veneer

Packaging
The table is delivered and transported in disassembled form. Packaging materials are taken back wherever possible and reused.

Kurt van Overbeke

Frame
Steel, powder coated

Year
2018

Accessories
Electrification

Category
Tables

Intended use
Meeting rooms, office environments, and social spaces

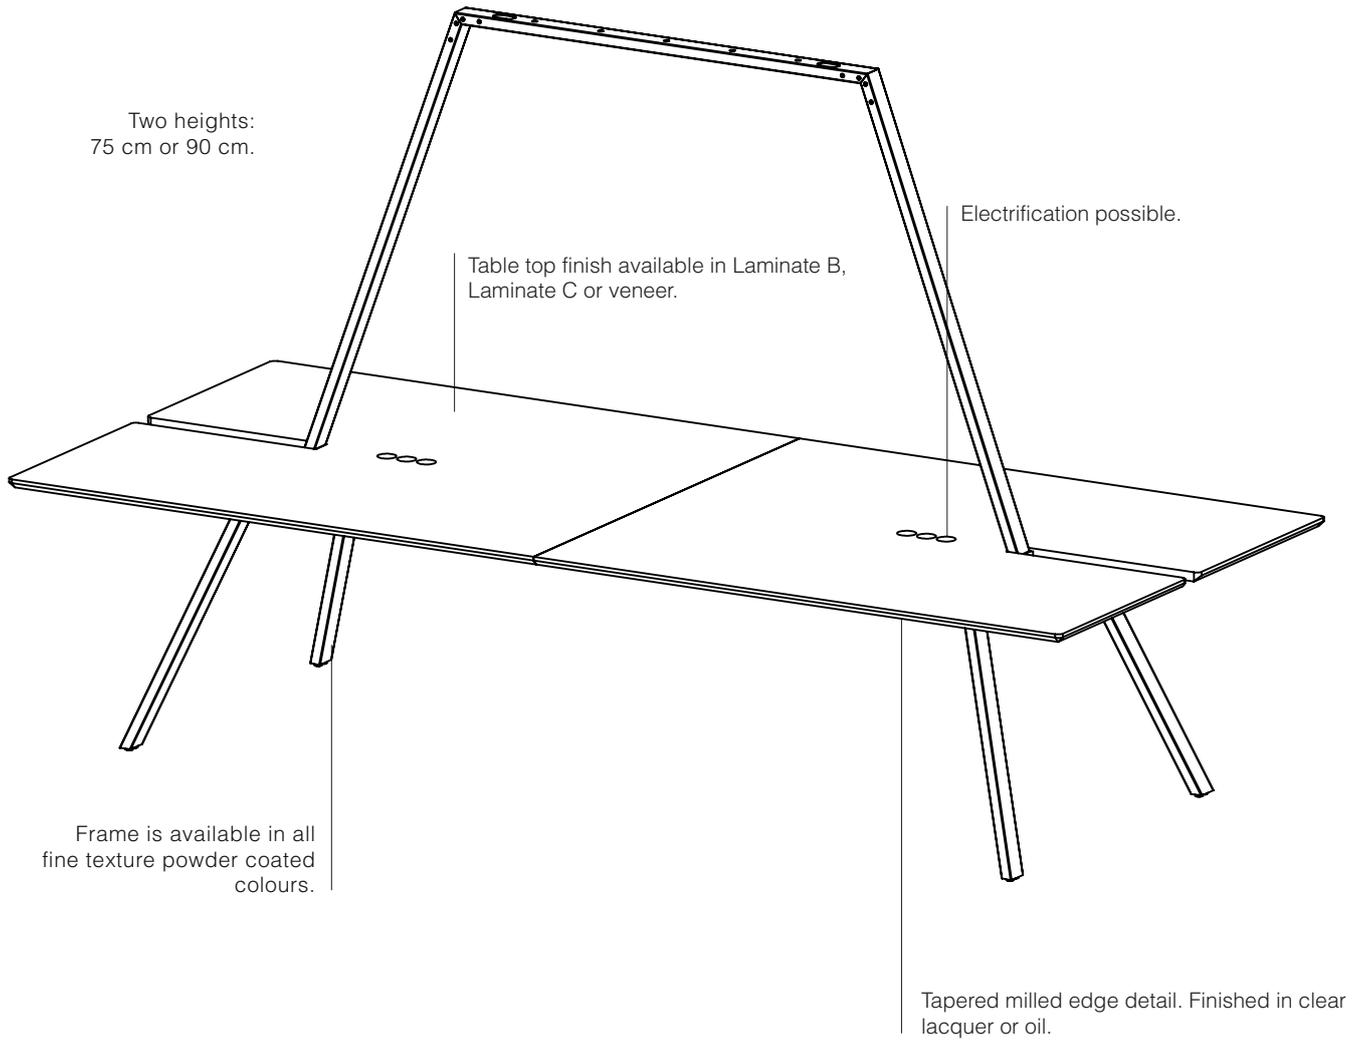

Certificates
Lande is ISO 9001 and 14001 certified.

Configuration Dock table

Configure the Dock table to suit your needs by choosing from various sizes, depths, and heights.

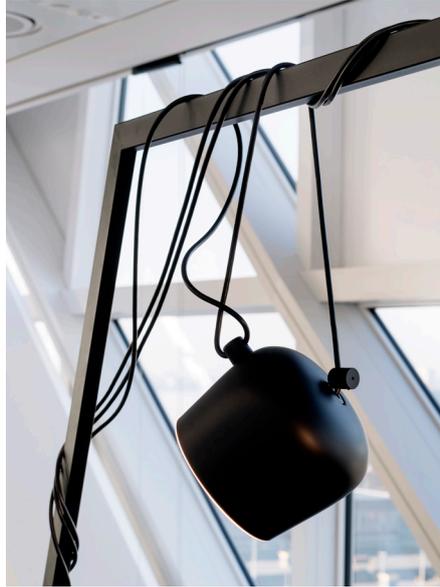

Options for power integration and lighting

Tailor the Dock table to your needs by selecting from the various dimensions, finishes and heights. Then add the desired electrification and lighting options.

Netbox spots. Up to three cut-outs for electrification can be placed on the left and right sides of the table.

The connection set for three or five lamps ensures that only a single plug is needed to power the lights. Please note: the Dock is supplied without lighting.

The Dock's frame can also serve as a support for hanging plants, bringing a touch of biophilic design and greenery into any space.
